

## After Care Instructions Vampire ButtLift®

- Bruising is normal after the Vampire ButtLift. You will feel sore until the bruising resolves. Tylenol®/Acetaminophen may be taken for this discomfort.
- Do not use anti-inflammatory pain relievers for 2 weeks if possible. These include: Aspirin (unless taking for a heart regimen or clotting disorder), Motrin®, Ibuprofen, Aleve®, and many prescription arthritis medications.
- Don't expect to see results for about 3 months.
- Please contact us if you have any questions or concerns: **(208) 339-0106**.
